***Election/Restrictions***

1. The amendment filed 04/02/05 notes that claims 3, 15, 27, 39, 50 and 56 are “withdrawn”. However, the Examiner has not withdrawn these claims from consideration and they are therefore still present and are duplicates of their respective parent claims.
2. This application contains claims directed to the following patentably distinct species of the claimed invention: **I:** the embodiment without an exterior attachment means for placement in a shirt or pant pocket, tackle box, etc. as set forth in the specification on page 9, lines 4-5; **II:** the embodiment with a clasp attachment as set forth in the specification on page 8, lines 22, 23; **III:** The embodiment with a belt loop attachment as set forth in the specification on page 9, lines 1-2.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 18 is generic.

Upon election of a single disclosed species under 35 U.S.C. 121, the Applicant is further required to choose a method of attaching the fly nap (i.e. stitched or bonded);

Upon election of a method of attaching the fly nap, the Applicant is further required under 35 U.S.C. 121 to choose a fly nap material (i.e. wool or synthetic fleece);

Upon election of a fly nap material, the Applicant is further required under 35 U.S.C. 121 to choose a method of affixing the band to the drum (i.e. stitched or bonded);

Upon election of affixing the band to the drum, the Applicant is further required under 35 U.S.C. 121 to choose a method of affixing the end cap (i.e. stitching, bonding or riveting);

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kimberly S Smith whose telephone number is 571-272-6909. The examiner can normally be reached on Monday thru Friday 10:00-4:00.
